Short Abstract:	
<p>VP Capital is a single family office based in Belgium and The Netherlands. As an <i>impact-first</i> investor, we back early-stage ventures delivering scalable solutions in five key areas: agri-food, built environment, clean technology, energy transition, and textiles.</p> <p>We invest to tackle today's most urgent challenges—climate change, biodiversity loss, and social inequality—by focusing on six solution types: biobased, regenerative, toxicity-free, circular, net zero, and inclusive.</p> <p>Our goal is to empower founders who are reshaping systems and driving lasting, positive change for people and planet.</p>
