<ul style="list-style-type: none"> <li>• Geography</li> </ul>	The impact must be visible in the Netherlands (international impact is a plus).
<b>Short Abstract:</b>	
<p>The Dutch chemical industry is on the brink of major transformation. New laws and regulations require companies to quickly adapt to become future-proof. The pitch "Scaling the industry, opportunities in the bioeconomy in the Netherlands" offers a clear roadmap to make the chemical industry more sustainable. This aligns perfectly with Invest-NL's mission to stimulate the transition to a biobased and circular economy by removing financial barriers.</p>
