Title	Waterfree biocoating to replace PFAS/Plastic based coating in food packaging
Company	Sustanix Materialtech BV
Speaker	Sarvesh Poddar
TRL	TRL 4 - 7
Keywords feedstock (max 2)	Cellulose, Starch
Keywords technology (max 2)	Organic chemistry
Keywords End-Product (max 2)	Packaging biocoating
Abstract:	
Sustanix presents the world's first water-free bio-coating derived from European agricultural biomass, engineered as a direct drop-in replacement for fossil-extruded and aqueous-dispersion plastic coatings in paper packaging. Operating as a hot-melt application, the technology completely eliminates the need for carrier water, drying hoods, and thermal gas.
